

NOTICE OF RECEIPT OF HAZARDOUS WASTE MANAGEMENT PERMIT RENEWAL APPLICATION FOR OLIN CORPORATION

Olin Corporation (Olin), TND 00 333 7292, submitted Part A and Part B hazardous waste management permit applications to the Tennessee Department of Environment and Conservation (TDEC) Division of Solid Waste Management (DSWM) for the renewal of its current disposal permit (TNHW-120). Olin's facility is located at 1186 Lower River Road, Charleston, Bradley County, TN 37310 (see map). This action follows the Pre-Application Public Meeting conducted by the facility on March 13, 2014, as required by Tennessee Rule 0400-12-01-.07(2)(c)3(i). No members of the public attended the meeting and no comments were received during the public comment period.

The current permit, issued on September 30, 2004, was effective for ten (10) years. Tennessee Hazardous Waste Management Regulations (Regulations) require that the facility submit the permit renewal application at least 180 days before the current permit expires. Olin submitted their Part B renewal application on April 1, 2014, thus enabling the facility to continue to operate under the current permit until another permit is issued or denied. If renewed, the permit will allow the facility to continue to operate and maintain the hazardous waste landfill for an additional ten years.

Olin operates a monofill-type hazardous waste landfill. The only wastes placed in this landfill are retort ash from the on-site mercury Thermal Recovery Unit, dewatered brine muds, and miscellaneous mercury contaminated waste. The renewal application does not request an increase to the landfill's current capacity of 56,000 cubic yards. Olin is allowed under the current permit, as proposed in the renewal application, to dispose of hazardous waste generated on-site and to receive and dispose of hazardous waste generated off-site, from sites owned and operated by Olin or subsidiaries of Olin. The volume of the hazardous waste received from such off-site facilities shall not exceed ten percent (10%) of the total hazardous waste treated or disposed at the Olin facility.

The conditions for continued corrective action on all solid waste management units (SWMUs) and Areas of Concern (AOCs) at the facility can be found in the post-closure permit number TNHW-112.

As set forth in the Regulations, a complete permit application, consisting of a Part A and a Part B, must include certain text, drawings and other information adequate to demonstrate that the facility will comply with the various technical and administrative standards applicable to such a facility. Evaluation of the renewal application involves an in-depth review of the application materials by DSWM staff and subsequent correspondence between DSWM and the facility identifying and correcting any deficiencies in the submitted information. Once it determines the application is complete, DSWM will make a tentative decision to either grant or deny the permit and issue either a draft permit or a notice of intent to deny the permit. Public Notice will be given of this tentative decision, and the public will have at least 45 days to submit written comments on the draft permit/proposed action. A public hearing, if requested, may also be held to receive public comments within this public comment period. After considering the public comments received and making any appropriate revisions, the DSWM director will issue a final permit decision to either issue a final permit or terminate the existing permit. A Response to Comments will also be issued at that time.

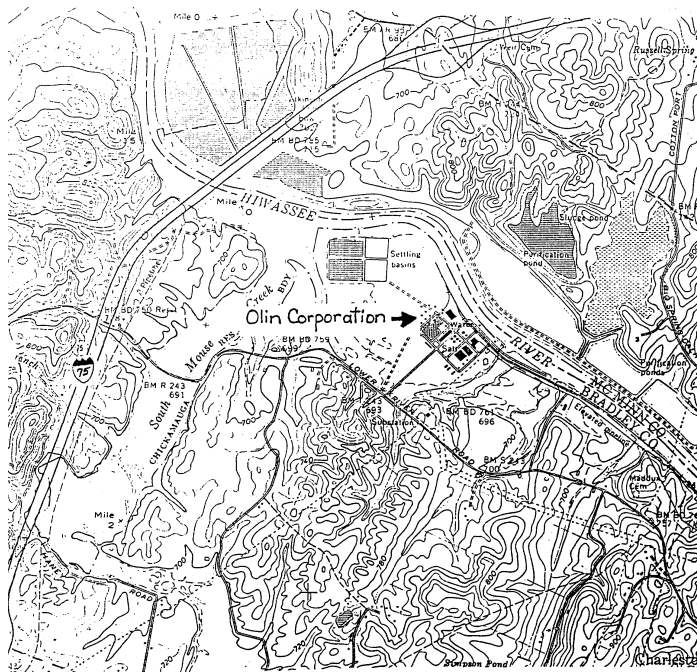

Interested persons may view the renewal application at the Cleveland Public Library, 795 Church St NE, Cleveland, TN 37311 (423-472-2163). The information is also available for public inspection during normal business hours, 8:00 a.m. to 4:30 p.m., Monday through Friday, except legal holidays, at the TDEC Chattanooga Environmental Field Office, Public Access Area, Chattanooga State Office Building, 540 McCallie Avenue, Suite 550, Chattanooga, TN 37402 (423-634-5745) or TDEC's Nashville Central Office, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Ave, 14th Floor, Nashville, TN 37243-1535 (615-532-0780).

Further information on this matter may be obtained by contacting Mr. Stephen Barnette of Olin Corporation, 1186 Lower River Road, Charleston, TN 37310 (423-336-4264). Information, opinions, and inquiries may be directed to Ms. Dilraj Mokha of DSWM's Treatment, Storage and Disposal Section throughout the permit review process by mail at William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 14th Floor, Nashville, TN 37243, by telephone 615-532-0821, fax 615-532-0938, or e-mail Dilraj.Mokha@tn.gov.

Persons wishing to be on DSWM's mailing list should obtain a Mailing List Request form by calling or writing the Public Participation Officer, DSWM, TDEC, William R. Snodgrass Tennessee Tower; 312 Rosa L. Parks Avenue, 14th Floor, Nashville, TN 37243-1535 (615-532-0798) or e-mail Solid.Waste@tn.gov.

TDEC is an Equal Employment Opportunity/Affirmative Action (EEO/AA) employer. The department does not unlawfully discriminate on any basis prohibited by applicable law in any of its programs, services or activities.

EEO/AA inquiries or complaints may be directed to the EEO/AA Coordinator, Office of General Counsel, at 1-888-867-7455. ADA/AA inquiries or complaints should be directed to the ADA/AA Coordinator, HR Division, at 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).
